B-Move Door Collection

B-Move is a line of sliding doors using different sliding systems which allows for customizing the dimensions and aesthetical aspects of the door panel.

Bluinterni offers different sliding possibilities: inside the wall, built in rails, with cover profiles, with outside wheels or hidden rail.

All doors are available in a wide variety of finishes to complement any style.

B-Move Minima –
Sliding door inside the wall

This sliding door inside the wall, available single or double and adaptable to various counter frames, allows us to combine a separation of rooms to a design element.

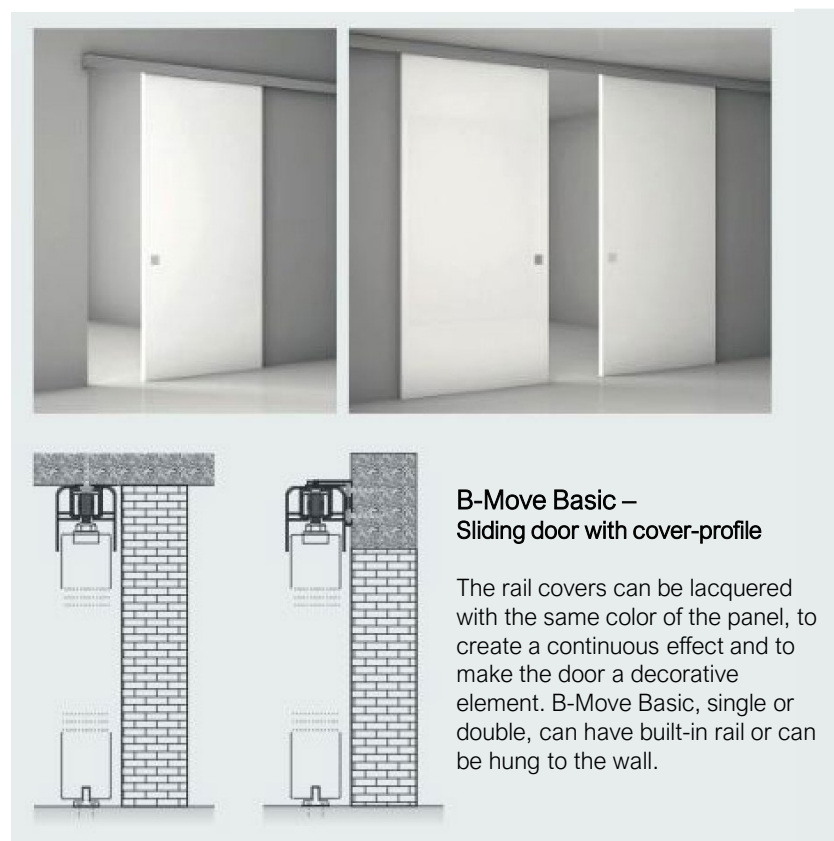

B-Move Sky –
Door with built-in rail

Available with single or double opening, this door becomes part of the architecture sliding in a rail built in the ceiling. The rail disappears and the main object remains.

B-Move Magic –
Sliding door with hidden rail

The sliding door system B-Move Magic can be made with single or double door, the distinguishing characteristic is the hidden rail. The hidden rail and the different available finishing make Magic an important architectural and design element for your home.

B-Move Basic –
Sliding door with cover-profile

The rail covers can be lacquered with the same color of the panel, to create a continuous effect and to make the door a decorative element. B-Move Basic, single or double, can have built-in rail or can be hung to the wall.

B-Move Multy –
Sliding system on wheels

Sliding door of new generation and maximum flexibility, can be single or double. The sliding door is no more given with a classic rail, but a sliding system with separated wheels.

B-Move Luce –
Door with overlapping sliding panels

A door which combines the overlapping of two panels sliding on double rail. Available in two versions with double door: Luce-B, with built-in rail and cover-profile, Luce-S with built-in rail.
