CUBICK- CHEST OF DRAWERS

LAURAMERONI
design . collection

Wood veneered chest of drawers, sectional and rotating, with the same internal and external finish. Cubick can have up to 7 elements plus the base and can freely rotate 360 degrees. It is available in all wood essences of the collection, with “Liquid Velvet” finish or glossy lacquered in all RAL colors.

Designed by the young Architect Paolo Nicolò Rusolen, Cubick stands out as a dynamic, geometric object, enhanced by the fact that it can be supplied in a variety of finishes. This product, part of Moving Collection, is designed for clients looking for a unique solution among many possible combinations of elements, materials, finishes and colors.

The key feature of Cubick is its dynamicity, thanks to its rotations as well as to the combination of material and finishes, that creates interesting alternations.

Cubick can have up to 7 drawers: a flexible solution for different needs.

Cubick is realized with an extreme attention to the tiniest details: each drawer has the same internal and external finish. This chest of drawers is also available in the special "Liquid Velvet" finish, for spaces where uniqueness prevails.

This piece perfectly adapts to the most diverse environments, thanks to the infinite chromatic combinations possible.

The possibility to freely rotate each single element up to 360 degrees turns Cubick into an adaptable product to decorate the space in an always new way.

The wide range of colors and finishes allows to customize the chest of drawers in an original way.
