HUG - CHEST OF DRAWERS

LAURAMERONI
design . collection

Storage unit with drawers with a slim and elegant line. An architectural structure with a rounded shape that wraps and encloses a supporting top surface and six drawers.

"Hug" is a modern furniture with six drawers that gives an impression of elegant suggestion in the space where it is placed. The wide choice of finishes and even special lacquers create exclusive visual effects that enhance the eye-catching design.

It can be placed near the tables of the same collection or elegantly placed in any living or night area.

The combination of special lacquers in contrasting colors outline and enhance the slim line and the particular design that distinguishes this tallboy. Every detail of "Hug" has been carefully studied to harmonize and make the setting of great aesthetic impact.

The opening of the drawers is facilitated by the rounded and protruding edge of the structure that surrounds them. Each drawer is also finished internally with the same external lacquer.

Hug is an architectural jewel that discreetly accommodates objects and accessories. The refined design and small dimensions of "Hug" allow the setting in elegant domestic contexts.

Every detail has been carefully designed to enhance contrasting lacquering and enhance the cylindrical shape, with a strong visual and aesthetic impact. "Hug" harmonizes perfectly with the environment that hosts it, creating an immediate sensation of elegance and luxury.
