SYMPHONY BED – SYMPHONY COLLECTION

LAURAMERONI
design . collection

Symphony is a fully customizable double bed composed of modular elements that can be realized in different finishes and allow you to design both traditional and corner compositions with great flexibility in terms of look and feel.

The essential characteristic of Symphony double bed is the possibility of being configured in different combinations thanks to its multiple modules and wide range of finishes.

The various finishes available for the headboard characterize the taste and aesthetics of this bed system conceived in continuity with the "Symphony" storage system, designed for the living space.

Symphony double bed configured in corner composition with Calacatta marble structure and nubuck leather headboard is the protagonist of this elegant and finely decorated bedroom.

Symphony bed features a series of accessories such as the round side table and the square shelf.

The simple lines of the Symphony bed hide refined details, precious materials and a distinguishing handmade touch.

The base of the bed is thin and low, almost invisible behind the thick mattress.

The Symphony program includes also a range of benches configurable with self- standing walls that can be used as TV units.
