## LEVEL LAMP

Level is both a sculptural object and a practical and flexible floor lamp. Artefatto designed a purist cylinder in satin brass with LED light that allows users to adapt it to their particular requirements.

The Level lamp brass cylinder can be inclined from its hinged break point up to 90 degrees and can rotate full circle depending on its use.

This makes the light a great companion because it is usable as a sofa light, a desk light, bed side light as well as sculptural object standing next to the window.

The use of hand-worked satin brass transforms this lamp in a precious product.

Level can be used next to a comfortable sofa in or close to a desk within a sophisticated office.

The simple and pure design defines the style of Level lamp.

The usual attention to details turns this floor lamp into a timeless design object.

The lamp can be inclined up to 90 degrees to allow an optimal use in different situations.
