LIGHT CUBE MA 25

LAURAMERONI
design . collection

Table lamp with structure in aluminum covered with burnished brass sheets and diffuser in micro-perforated stainless steel.

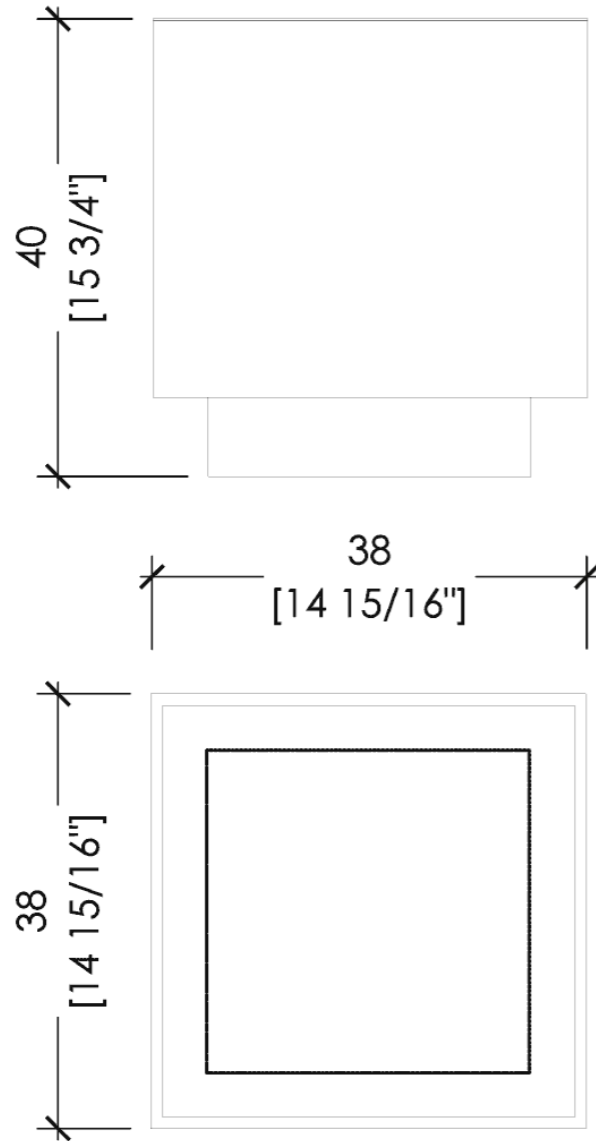

MA 25 has a cubic shape and can be used both on the table or on the floor. This lamp is designed to project the light upward through the diffuser. As a result, a diffuse light filters from the base creating the effect of a floating cube.

MA 25 has an elegant cubic shape and can be used both on the table or on the floor. Light Cube is designed to elegantly project the light upward through the diffuser. Light cube has a simple geometrical shape designed for clients who prefer simple lines and high-quality materials.

The light filters from the base creating the surprising effect of a floating cube. This table lamp is designed for sophisticated environments where a diffuse light characterizes the atmosphere.

FINISH
