STARS ST21 CONSOLE

LAURAMERONI
design . collection

Console with bright steel or painted steel structure and transparent ultra-light glass top.

Part of the Sottsass Collection, SA 06 was designed with the intention of producing a sculpture-piece, expressing an idea of essential luxury and stable contemporary culture. This console can be used both in private and public spaces to welcome clients and to entertain guests, offering them a unique atmosphere.

This console, designed by Sottsass Associati, combines a high steel base with the ultra-clear crystal top to offer an elegant atmosphere.

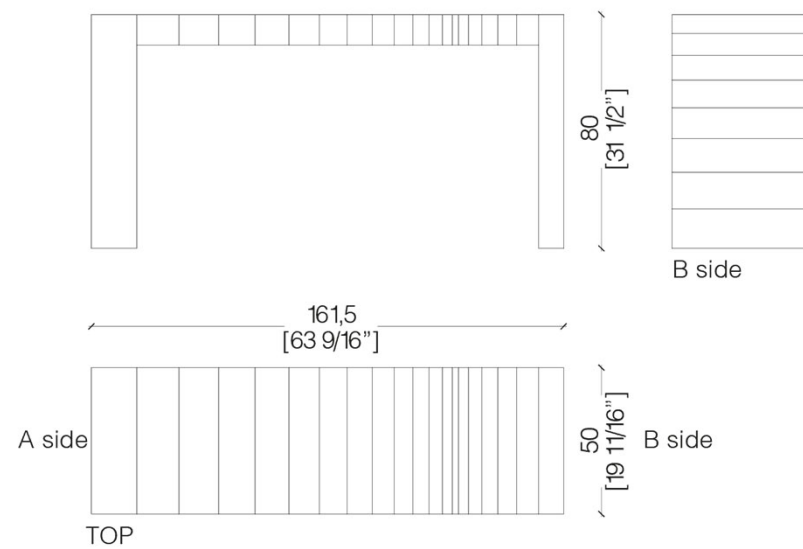

Polished steel and crystal create unique reflections and lend light to the environment.

The steel base is composed by several supports, each one following a different direction to create a surprising effect.

SA 06 is designed to be used in public or private spaces for entertaining friends or guests in refined environment.
