ST 51 M TABLE

LAURAMERONI
design . collection

Rectangular table with top and legs completely clad in metal, available in different dimensions.

Perfect for both private and public spaces, this table creates unique light reflects which embellish the atmosphere offering a functional option for luxury environments.

The alternation of rectangles, as well as the variety of finishes available, allow the client to personalize the table and to find the best option for each space, always maintaining Laurameroni's attention to the treatment of materials unchanged.

ST 51 table combines pure, essential lines with an unusual, distinguishing treatment of the material surface. The elegant black iron "Cenere" is an ideal solution for refined environments where differentiation prevails.

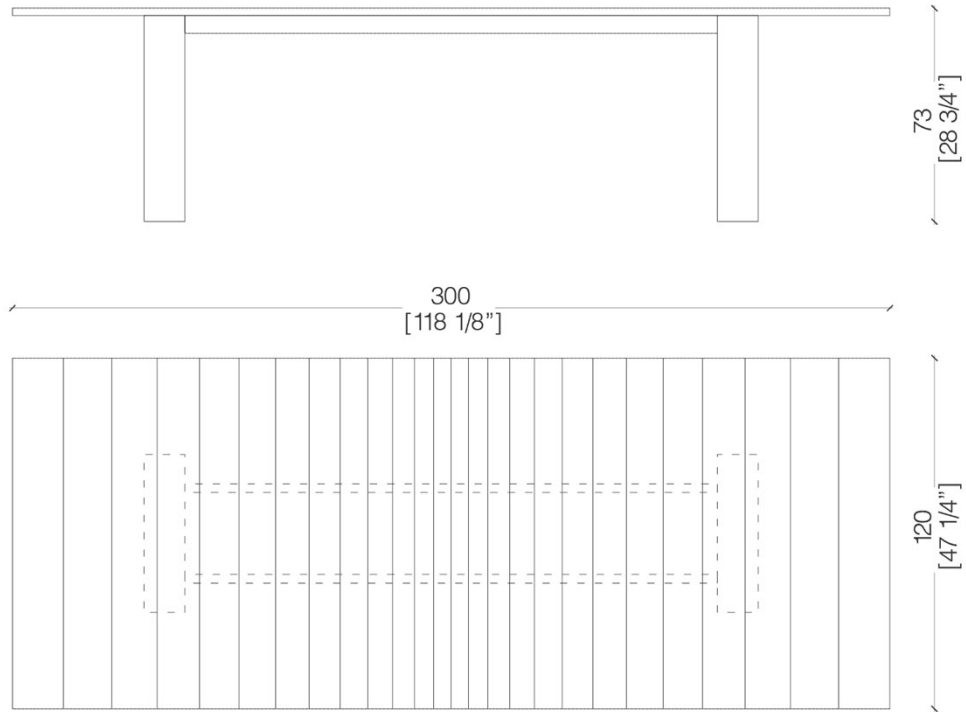

The sequence of metal rectangles on the table surface underlines once again Laurameroni usual attention to an unrepeatable design.

This table, with top and legs completely clad with metal, is available in different dimensions and finishes: burnished brass, burnished copper, satin brass, satin copper, polished steel, and black iron "cenere".

The choice of finest metals, enhanced by the patient work of our craftsmen, combines with a sophisticate design.
