SHADOW LAMP

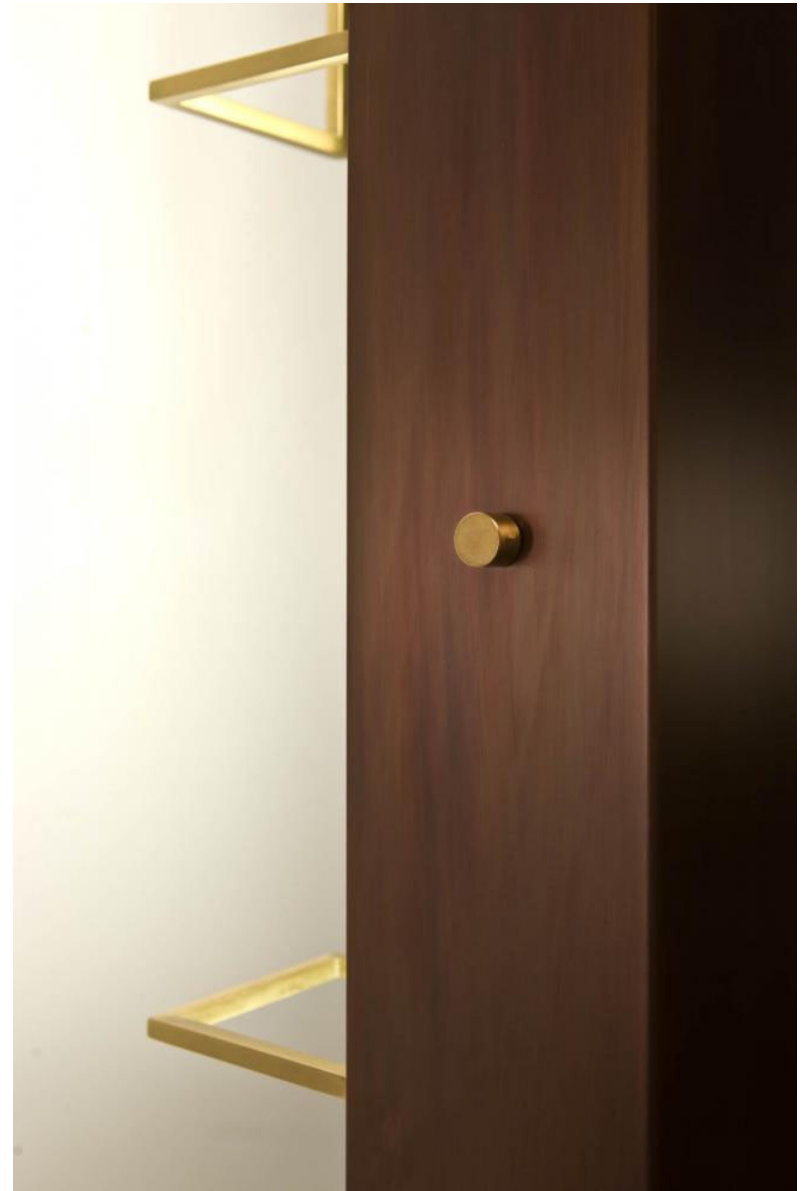

Floor lamp with structure in burnished copper and decorative elements in satin brass. Dimmer that allows the regulation of luminous intensity.

MA 30 is both a lamp and a decorative element, a product designed in order to be incorporated within a larger interior scenario. The finest materials are valorized by the patient work of craftsmen, creating a unique and innovative lighting element.

Modern floor lamp with burnished copper structure.

MA 30 is both a lamp and a decorative object, a product designed to be incorporated within a larger interior scenario where it is immediately visible.

Floor lamp with burnished copper structure and four satin brass decorative elements that create unique reflections.

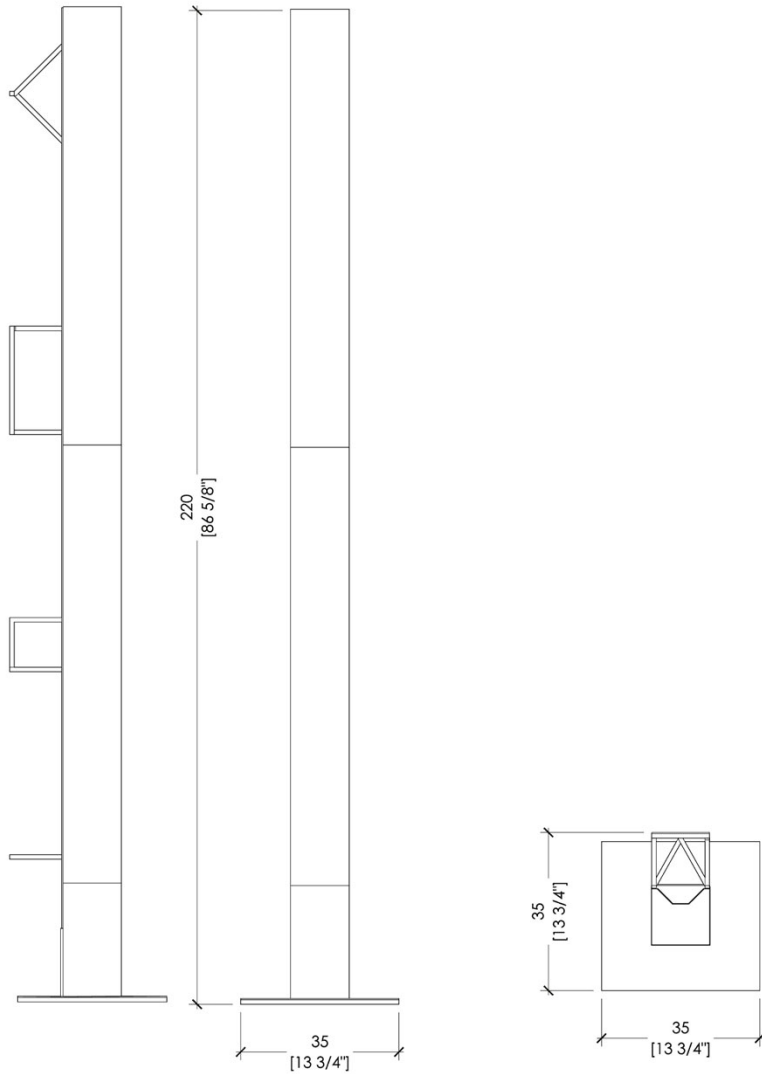

This floor lamp can be used individually or in compositions for a mysterious atmosphere. Shadow Structure has 3 LED bulbs and 2 fluorescent dimming bulbs that allow to adjust the light intensity.

Shadow structure is designed to be placed near a wall to create a unique play of light and shadow for an inspiring atmosphere.

Satin brass and burnished copper define this lamp which is a sculptural object for environments in which uniqueness prevails.
