STARS COLLECTION WALL PANELS

LAURAMERONI
design ■ collection

STARS WALL PANELS

Made to measure Wall Panels clad with metal and available in burnished brass, satin brass, satin copper, burnished copper, polished steel and black iron "Cenere".

The wall panels can also be integrated with sliding and hinged doors of the same collection.

Stars Wall Panels are a unique cladding solution designed to satisfy the most demanding customers, offering them a unique luxury product, made with the most precious metals, enhanced by the patient work and the exceptional abilities of our craftsmen.

STARS WALL PANELS

The particular surface, divided into sequences of metal bands, defines the design of the Stars collection.

The surface of the panels is hand-worked to enhance the precious metal essence and thus gain unique effects.

The attention to metals treatment and the use of metal strips of different sizes create a rhythmic effect in the environment: the perfect solution for elegant spaces, where luxury meets uniqueness.

STARS WALL PANELS

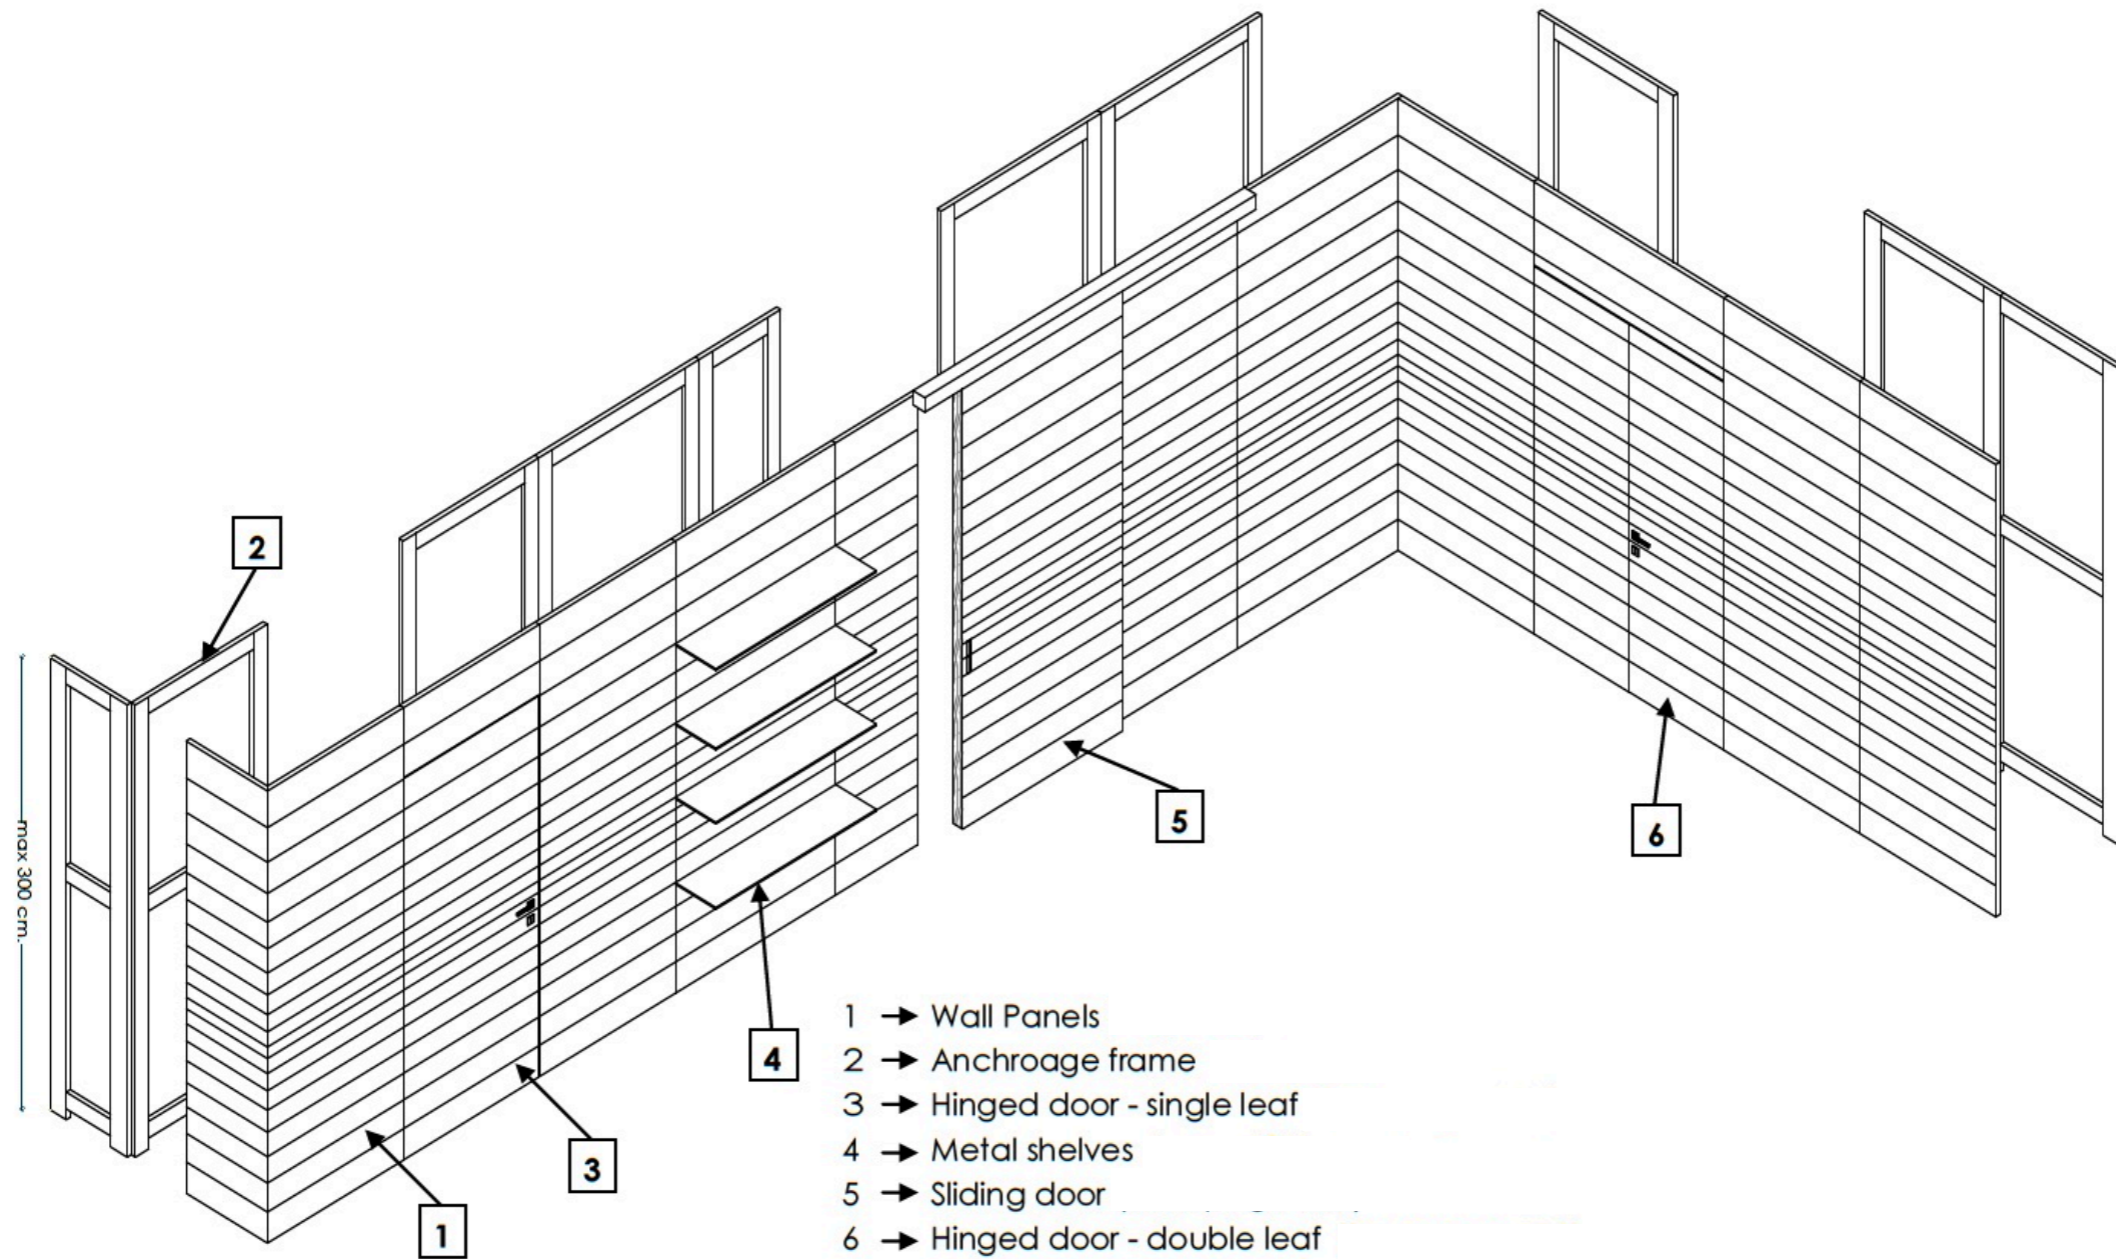

The hinged door of the Stars collection is perfectly integrated with the wall panels.

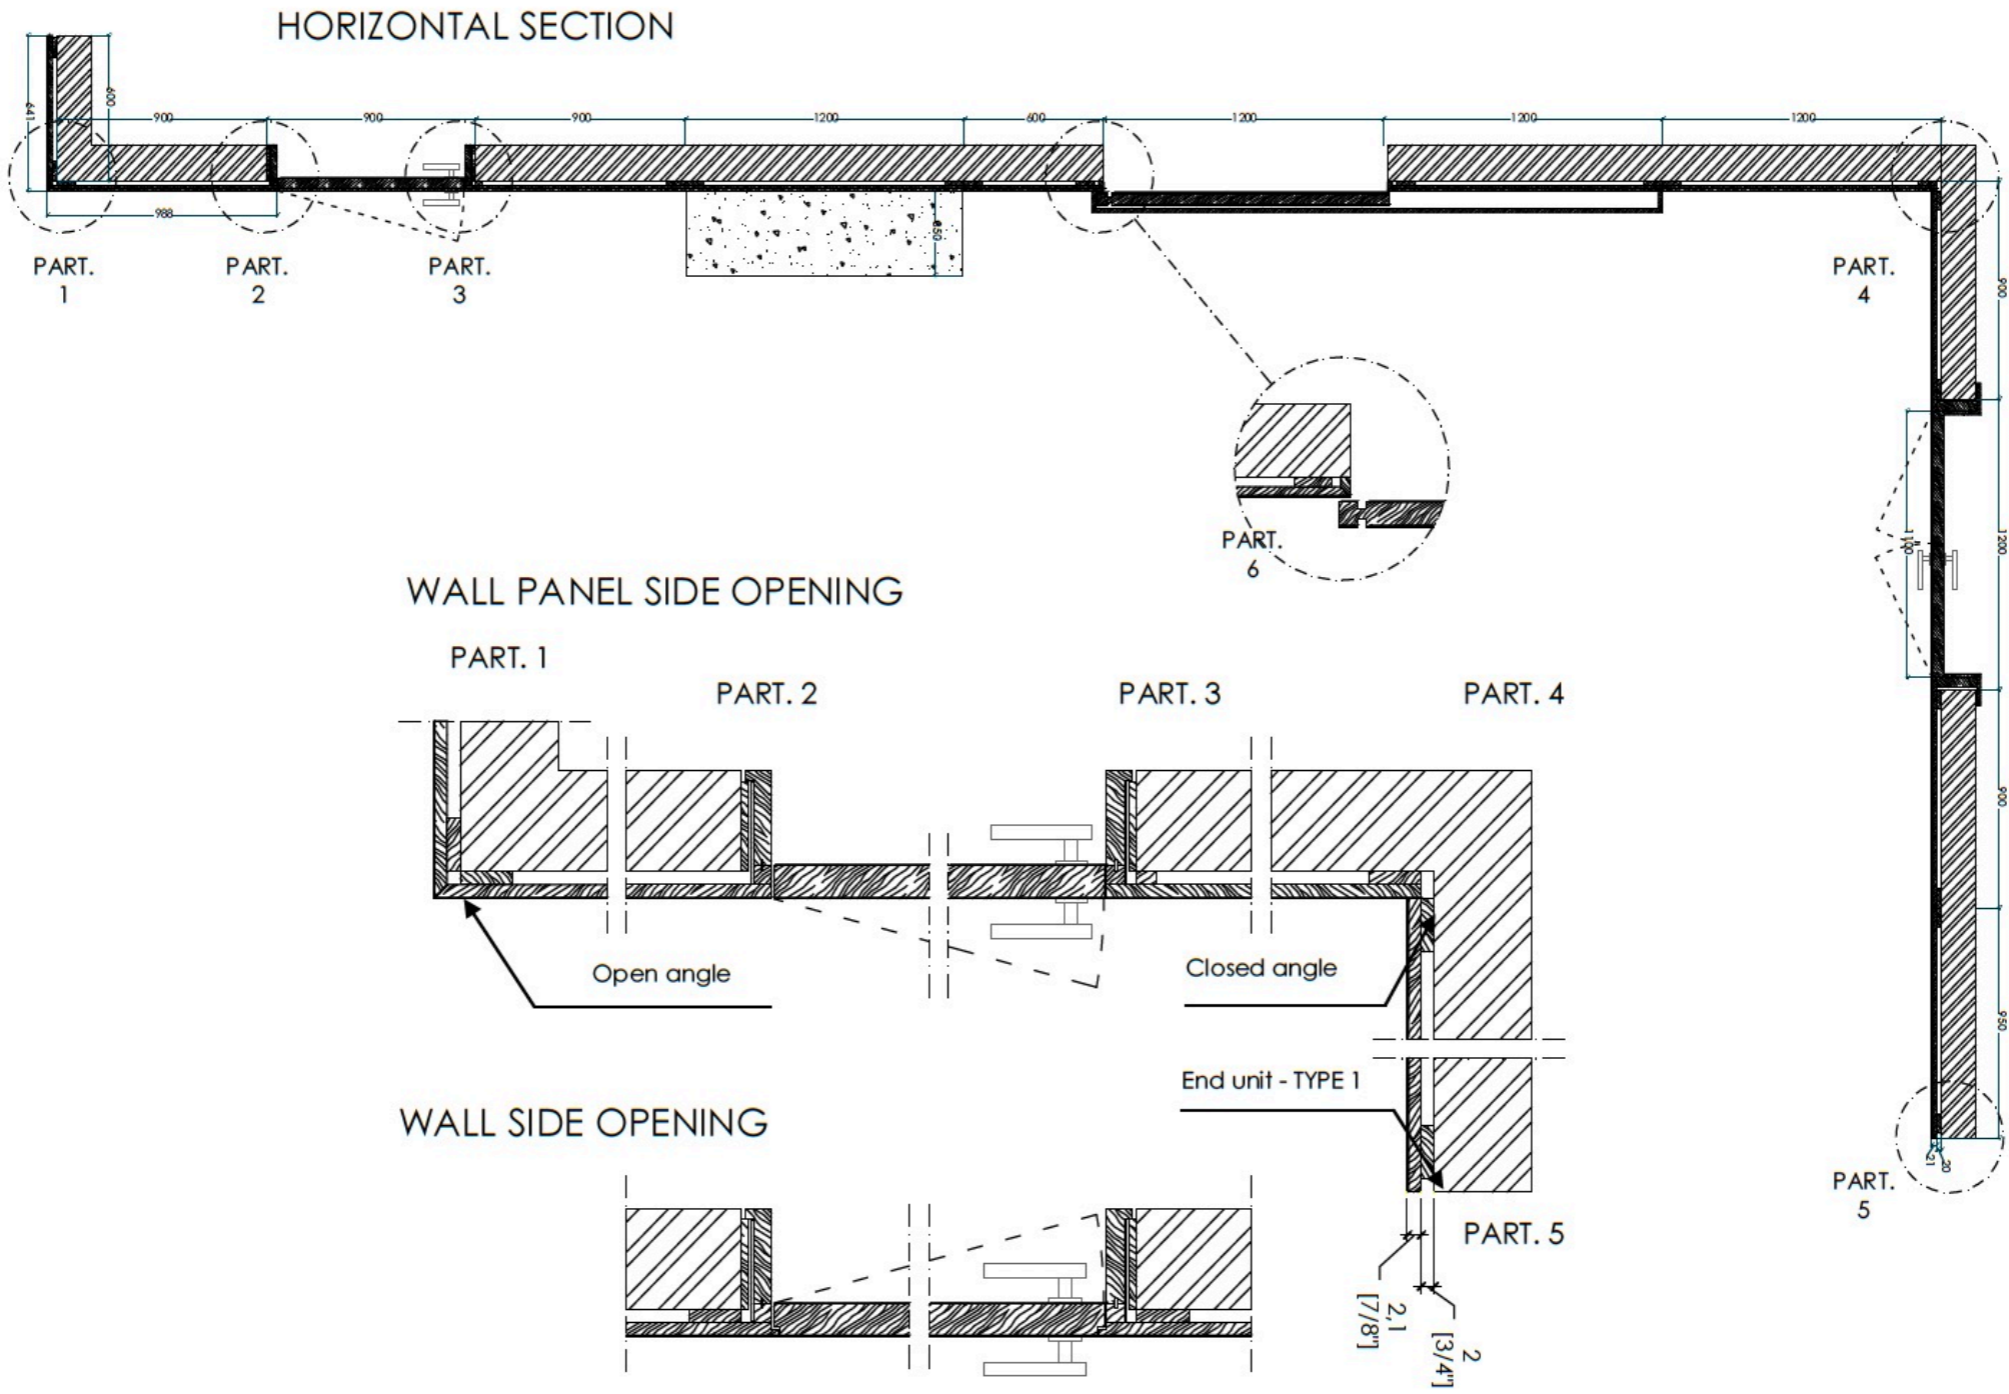

The Stars wall panels system combines a distinctive design with high quality materials, creating unique effects: a functional and elegant solution to connect different rooms.

Combined with the niche or with sliding and hinged doors, the Stars collection is a flexible solution designed for the most demanding customers.

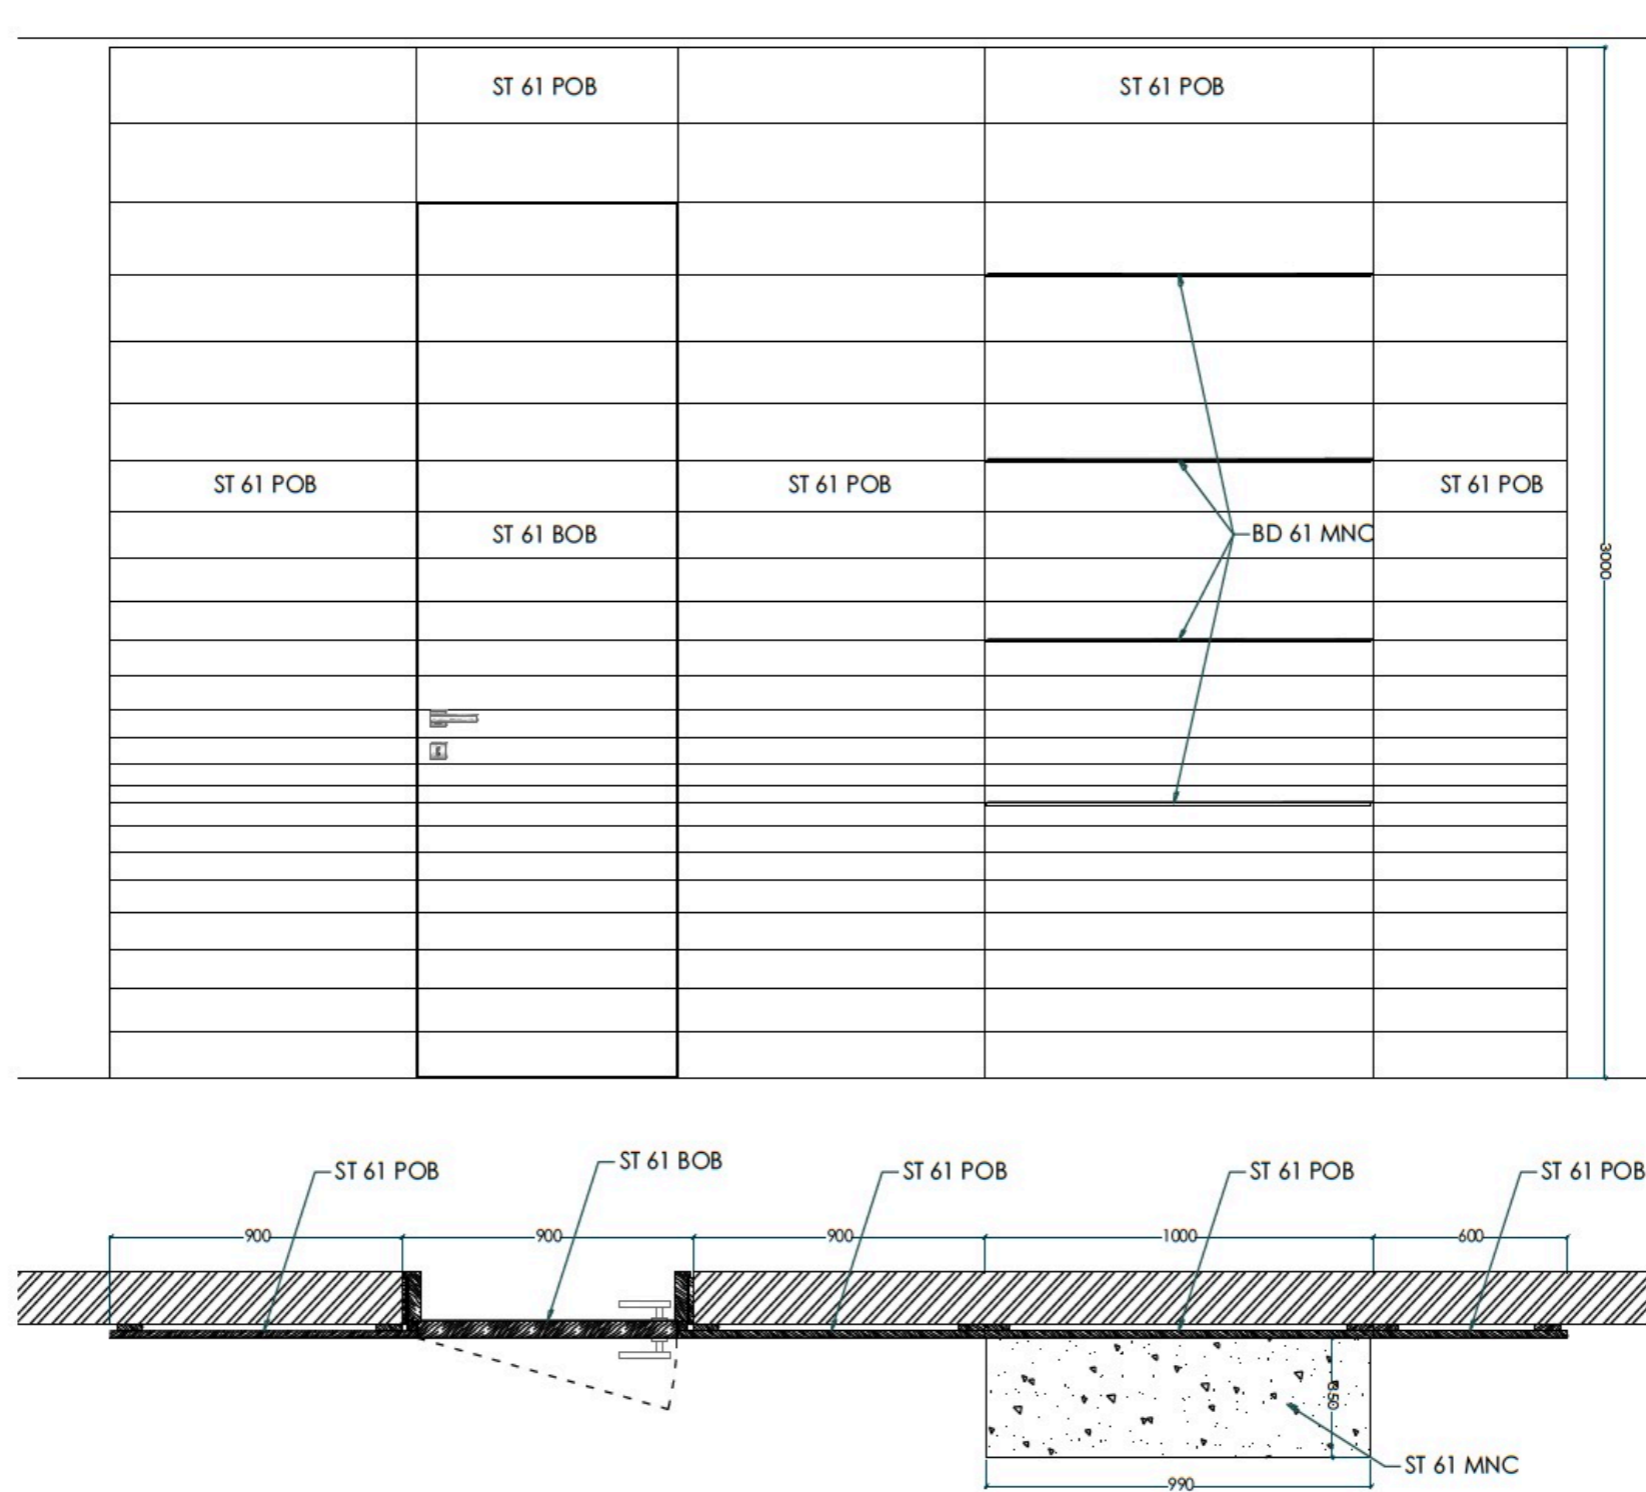

STARS WALL PANEL

Besides the doors, Stars collection includes a range of wall panels and shelves.
Stars wall panels allows the creation and decoration of an exclusive environment, characterized by personalized compositions.
A simple anchorage structure allows to fix accurately and quickly the panels to wall.

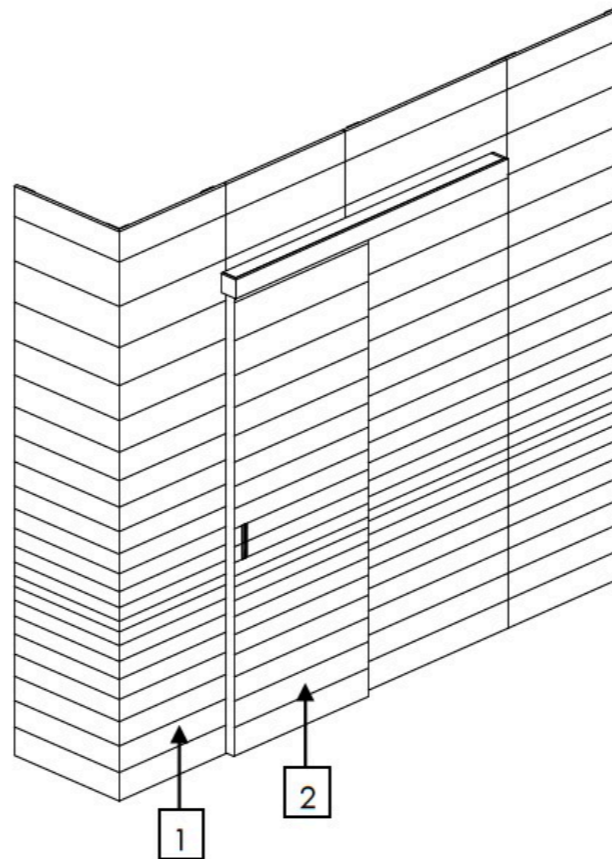

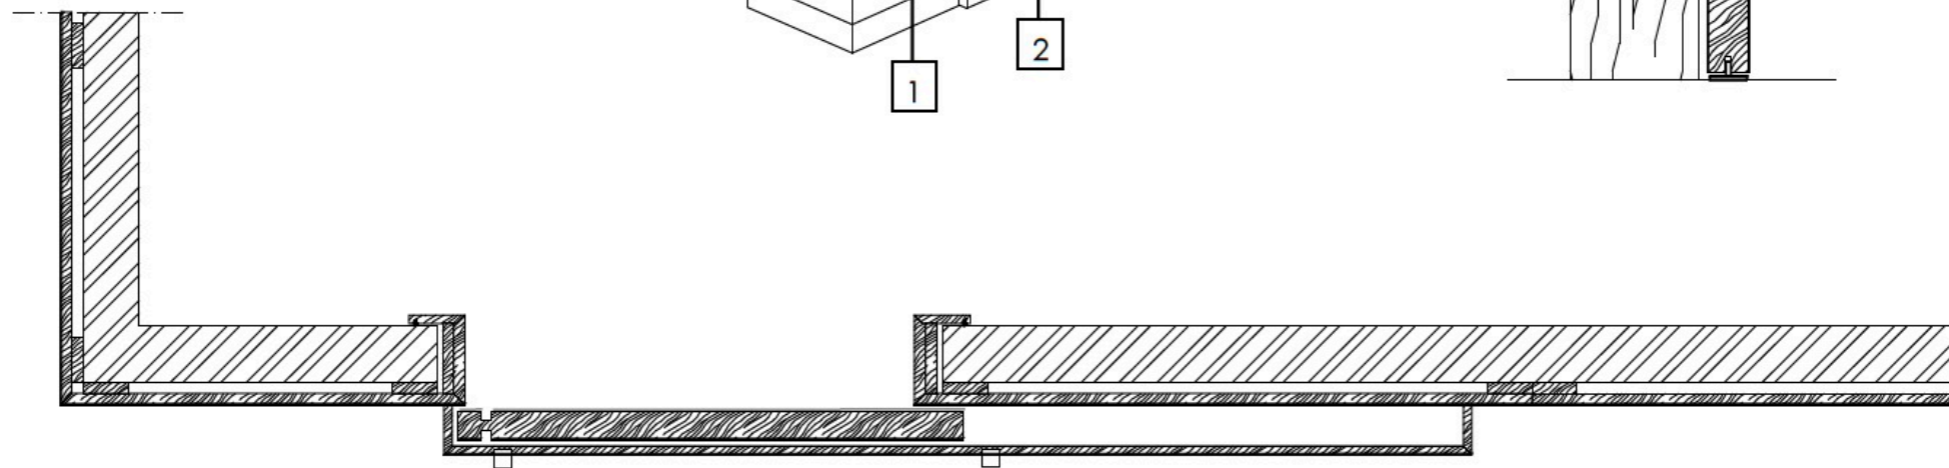

WALL PANEL SYSTEM with "hinged" door

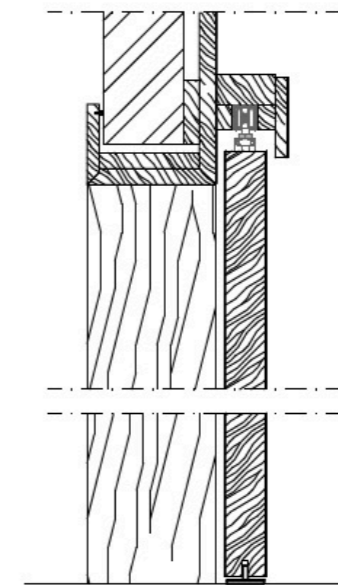

WALL PANELS SYSTEM with "AT SIGHT" Sliding Door

- 1 → Wall panel + Anchorage structure
- 2 → Sliding door with rail cover

HORIZONTAL SECTION

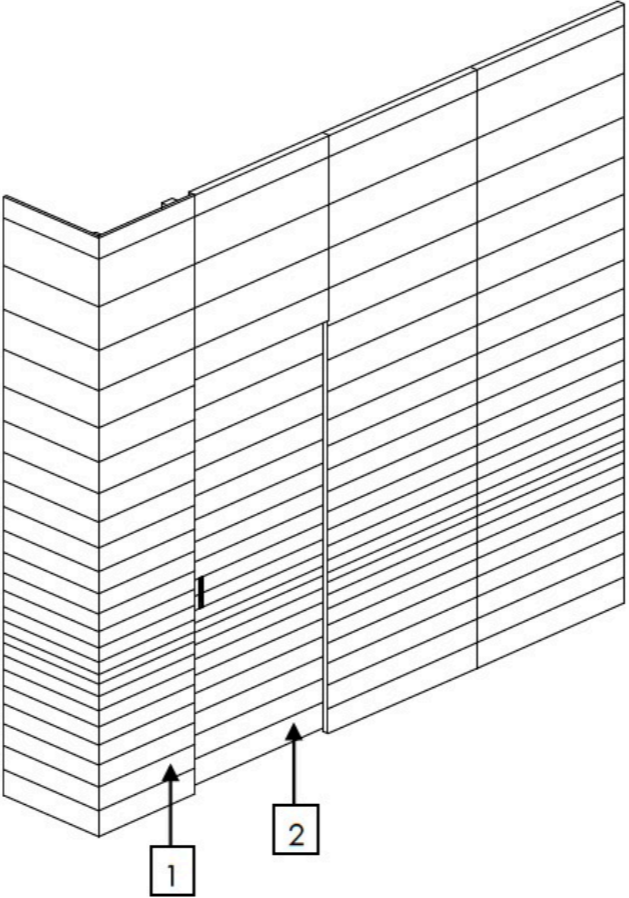

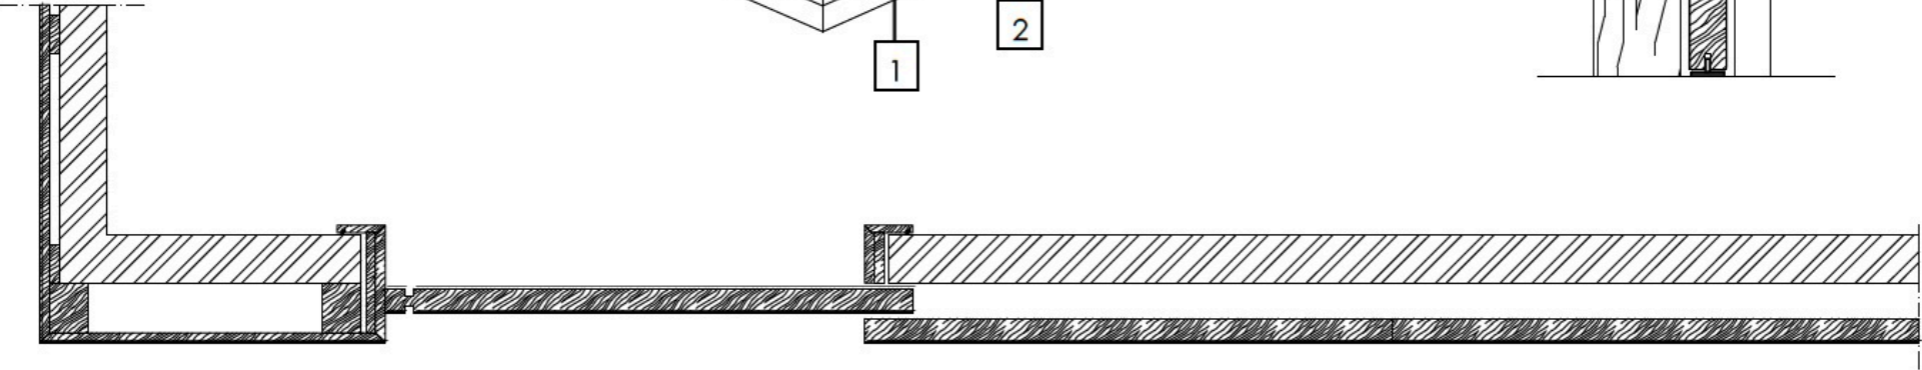

VERTICAL SECTION
