TUBO SOSPENSIONE LAMP

LAURAMERONI
design . collection

Hanging lamp with structure in satin brass and adjustable lower disc.

This lamp was born by the creative inspiration of its designer, combined with the ability of the craftsmen who realized it. MF 40 is a sophisticated element of design to be used in different environments and is particularly apt for clients looking for a lamp which is both functional and decorative.

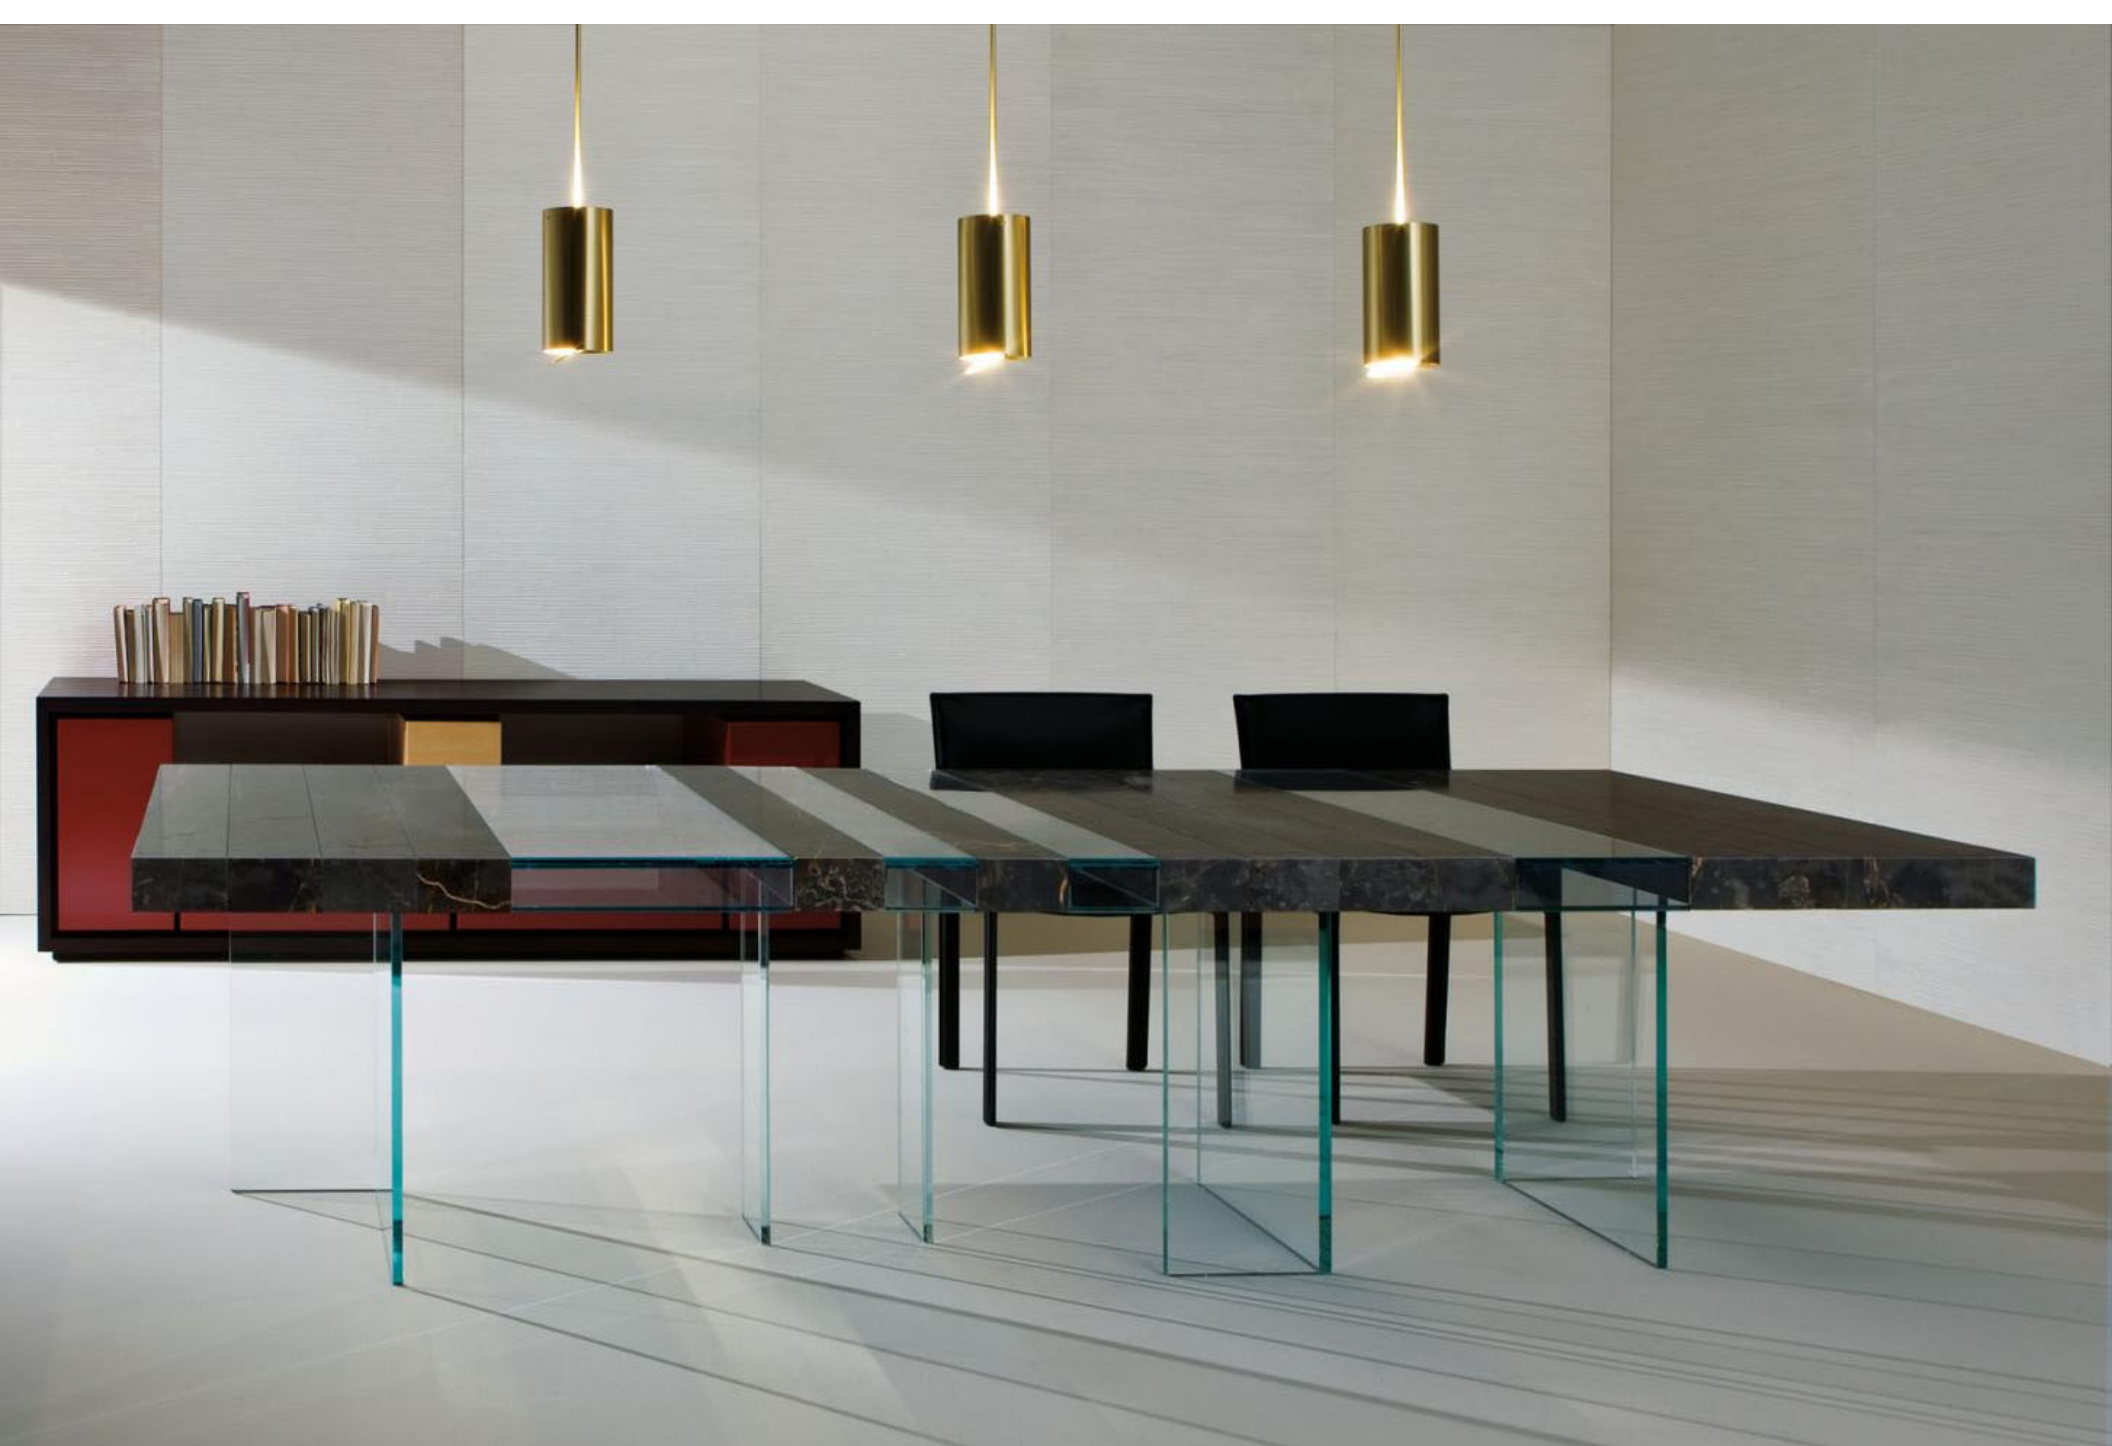

The warmth of the satin brass reflections donates an elegant look to the essential design of the lamp. The hand-worked metal creates unique reflections for a sophisticated atmosphere.

Its simple shape combined with the adjustable lower disk allow to modify the light direction.

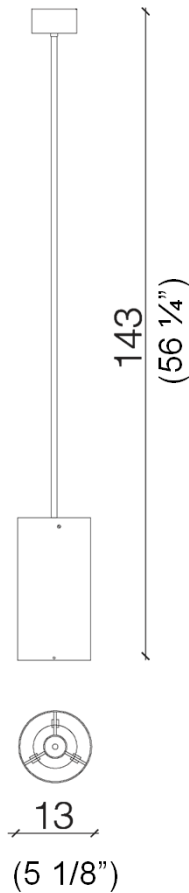

It is possible to use MF 40 to create linear compositions and illuminate a bigger environment.

Essentiality and linearity conveyed by the satin brass cylinder characterize the design of this lamp.
