INSTARSIA COLLECTION

Thanks to the collaboration with well-known artists and designers, we created a collection of furniture deserving the status of art products.

The ancient inlay technique, the extreme ability of our craftsmen and the creative inspiration of our artists fuse together: the result is a collection characterized by a timeless beauty and inspired by the desire to create ambitious products.

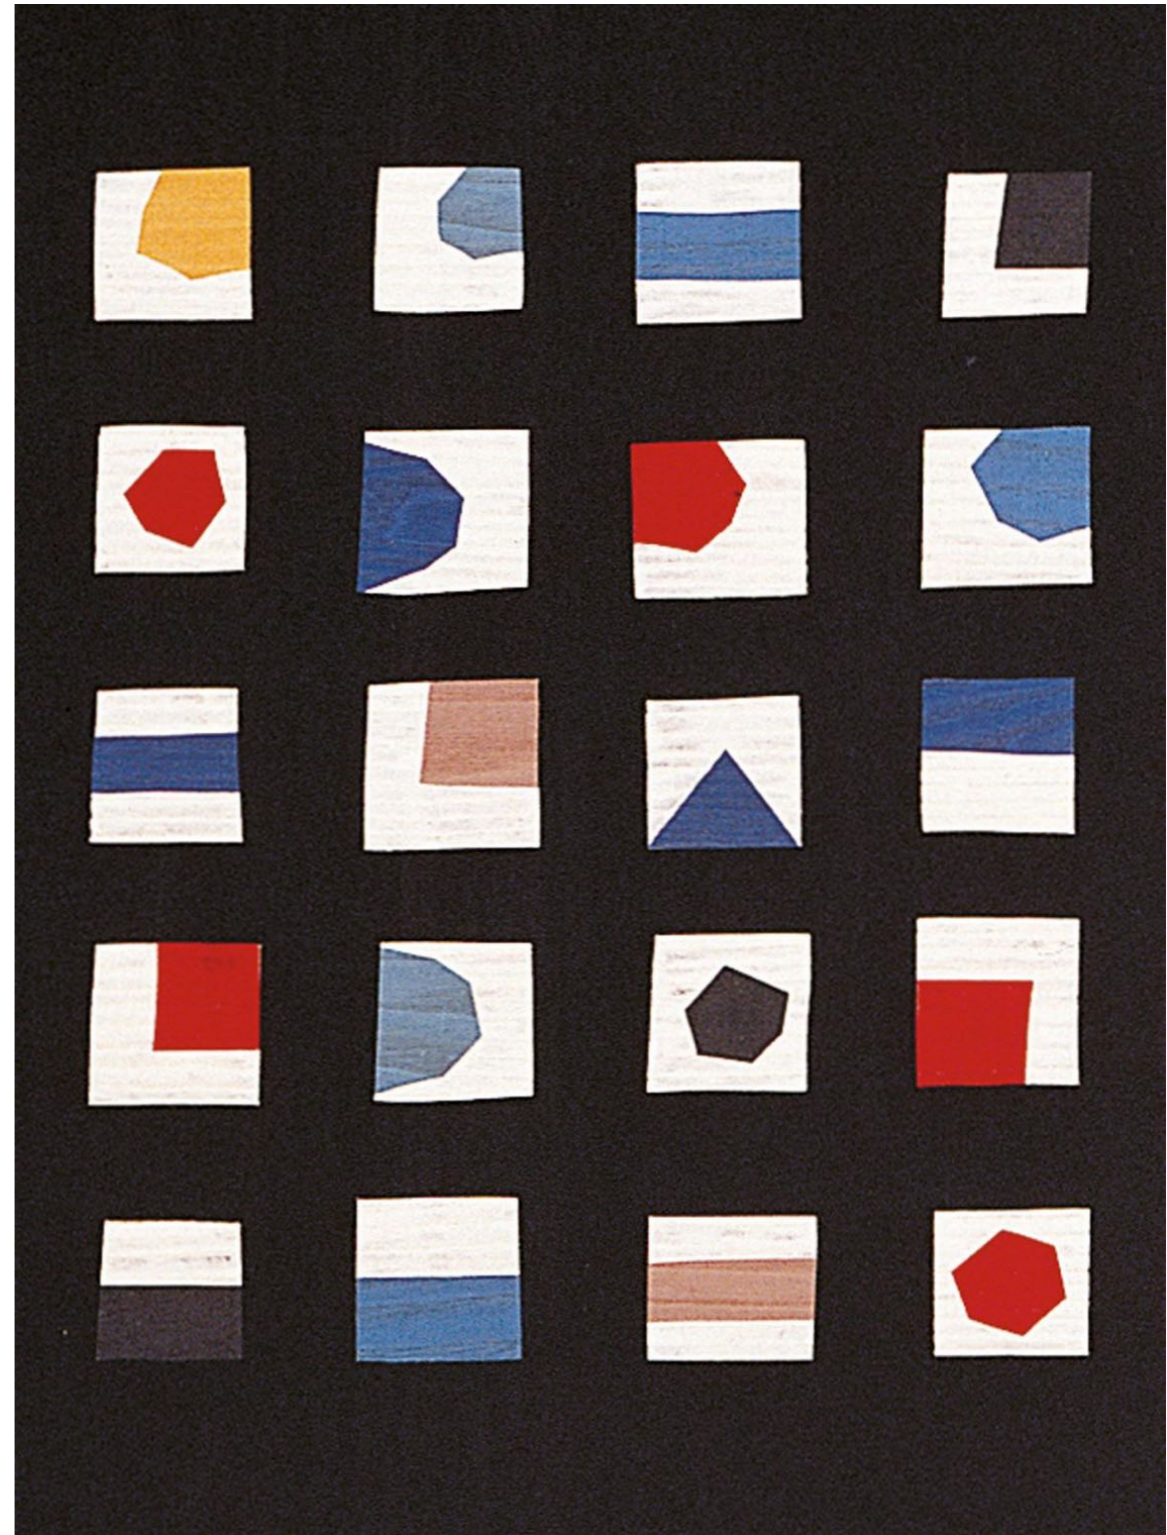

Intarsia Collection revives the local tradition of this ancient inlaying technique: a collection of sideboards designed to be reproduced only in numbered specimens, signed, and certified by the author and by the craftsman.

These sideboards are design furniture turned into paintings. "Intarsia" represents a direct contact with raw materials which take shape through manual ability and scrupulous dedication, reinvented by imagination and direct experience with wood.

INSTARSIA 2

For the author this inlay represents small colored squares looking like stars twinkling in a cheerful night. An evocative decoration makes this sideboard unique and at the same time inspiring, allowing the observer to interpret it according to its personal experience.
