INSTARSIA COLLECTION

Thanks to the collaboration with well-known artists and designers, we created a collection of furniture deserving the status of art products.

The ancient inlay technique, the extreme ability of our craftsmen and the creative inspiration of our artists fuse together: the result is a collection characterized by a timeless beauty and inspired by the desire to create ambitious products.

Intarsia Collection revives the local tradition of this ancient inlaying technique: a collection of sideboards designed to be reproduced only in numbered specimens, signed, and certified by the author and by the craftsman.

These sideboards are design furniture turned into paintings. "Intarsia" represents a direct contact with raw materials which take shape through manual ability and scrupulous dedication, reinvented by imagination and direct experience with wood.

TWILL

project by Bartoli Design

INSTARSIA 3

Twill is a sideboard enveloped by a mosaic of Eucalyptus, Oak and Tay wood marquetry, interspersed with off-white wood areas, creating a light-and-shadow geometric interplay. It is a high-level craftsmanship furniture piece deserving the status of art multiple.

“We combined that typically Italian craftsmanship with our designer’s sensibility, exploring the geometry of the twill, the English fabric with herringbone pattern. What we wanted most was this graphic theme to cover the whole object, completely enveloping it and making it possible to place the sideboard in the centre of the space as a sculpture” – Bartoli Design

ABOUT THE DESIGNER

Bartoli Design, a team comprising Carlo, Paolo and Anna Bartoli, continues its experience in design and design culture begun by Carlo Bartoli in 1960, achieved through many partnerships with leading companies in the furniture sector. The studio's research focuses on poetic elegance based on simplicity and balance: from the initial concept of product and communication strategies to creative and product development, the studio's activities embrace a complete spectrum of design services. It is also thanks to the deep understanding of technologies, industrial processes and craftsmanship, that the studio received important awards and exhibited its works and products in international museums and exhibitions.
