BELLAGIO KITCHEN

LAURAMERONI  
design . collection

The Bellagio kitchen project meets new requirements and completes our Decor system of furniture items such as doors, wall panels, cabinets: a unique proposal of flexibility, thanks to the quality of its materials and the surface design.

These kitchens are designed for clients looking for a luxury solution in which uniqueness and sophistication prevail, as far as design and material choice are concerned.

Marble, glass, precious woods and metals offer different combinations with a common denominator, which always characterized Laurameroni production: uniqueness.

The different Base modules include closet columns, open or hinged containers, sliding concealed doors, internal and external drawers, display cases and cabinets, all equipped on request with LED light backdrops or bars.

The custom-made storage and wall units modules become distinctive design features. The attention to detail is also manifested in the reinterpretation of the door edge, characterized by a distinctive double thickness.

Among the many choices, we also mention the possibility of including very elegant LED-lit plexiglass display cases and exclusive shelves for Wine Storage.

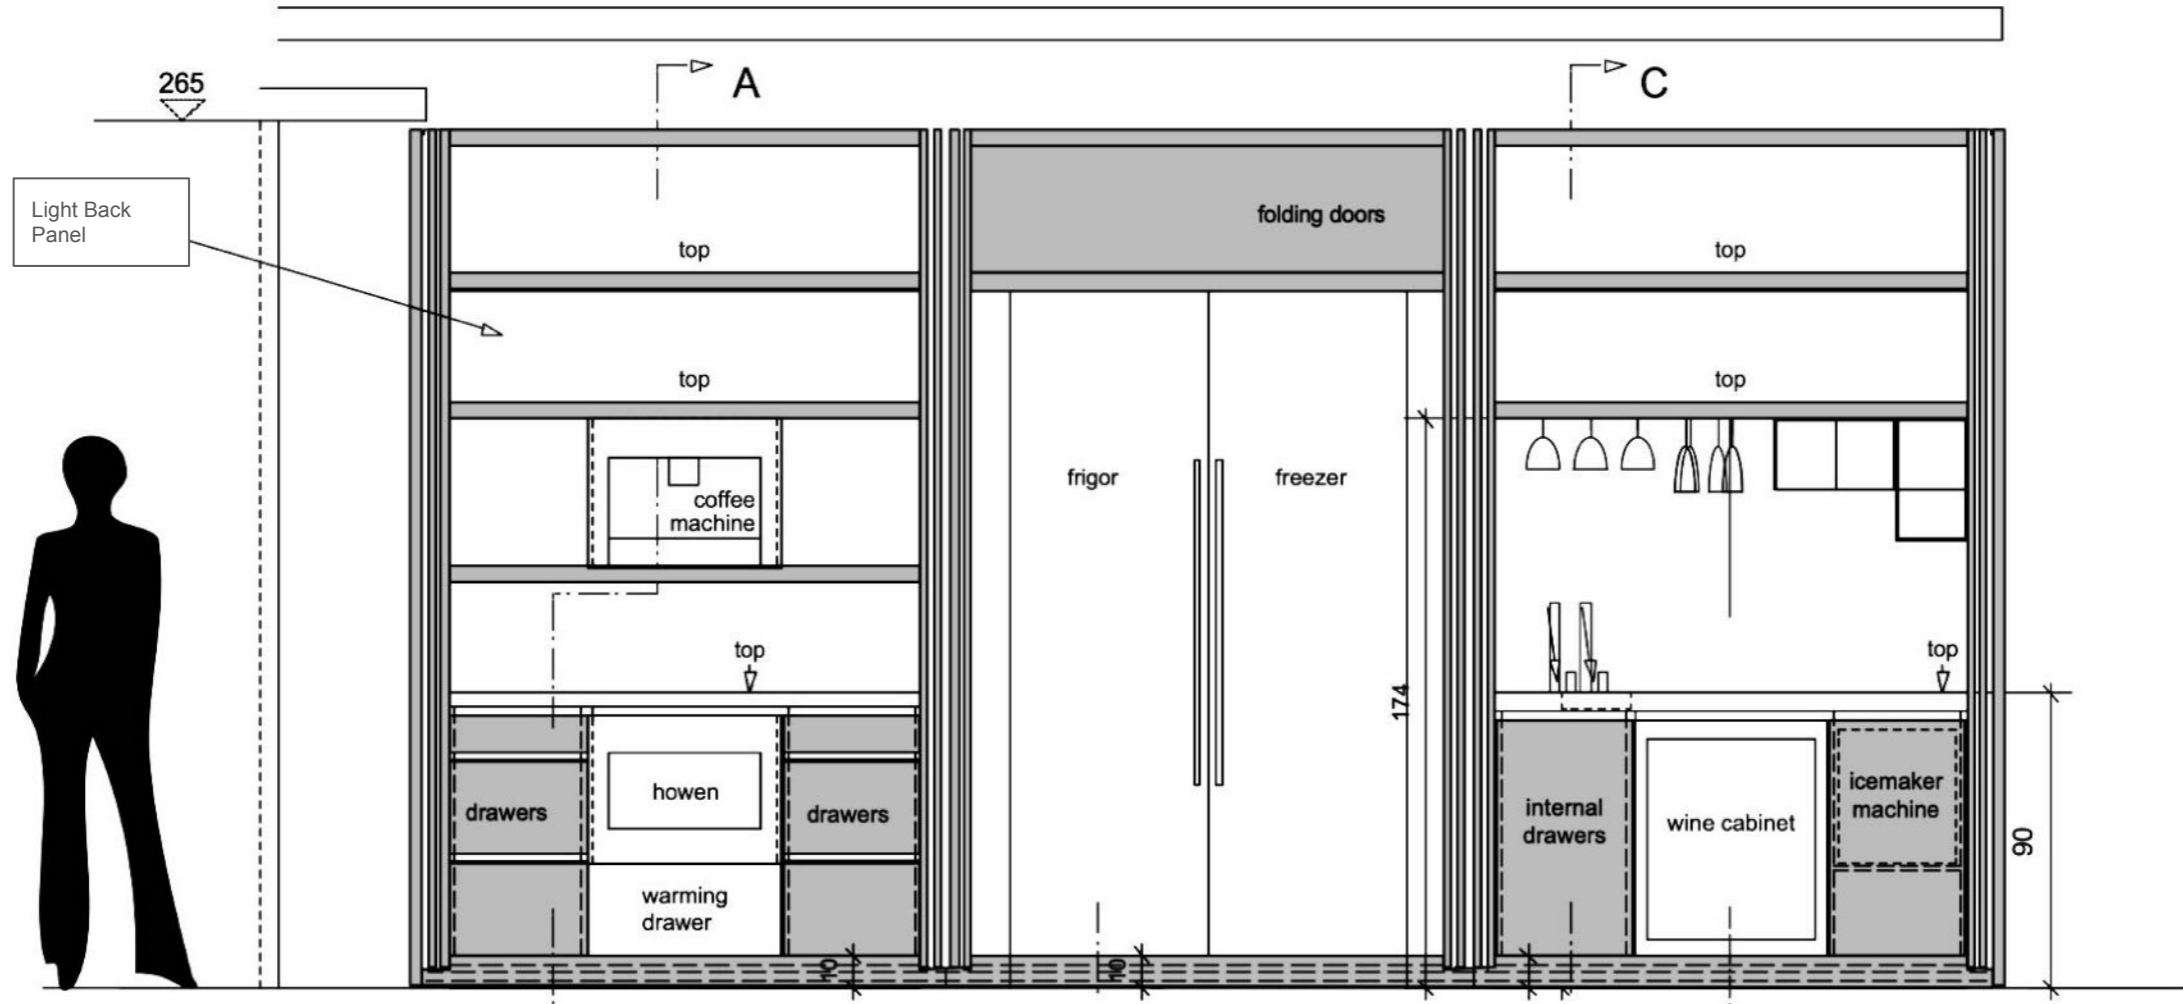

Bellagio kitchen with Canaletto walnut Decor structure and Fossena stone countertop. Plain wall panels and sliding doors in brushed matt lacquer, and a Canaletto walnut bottle rack system

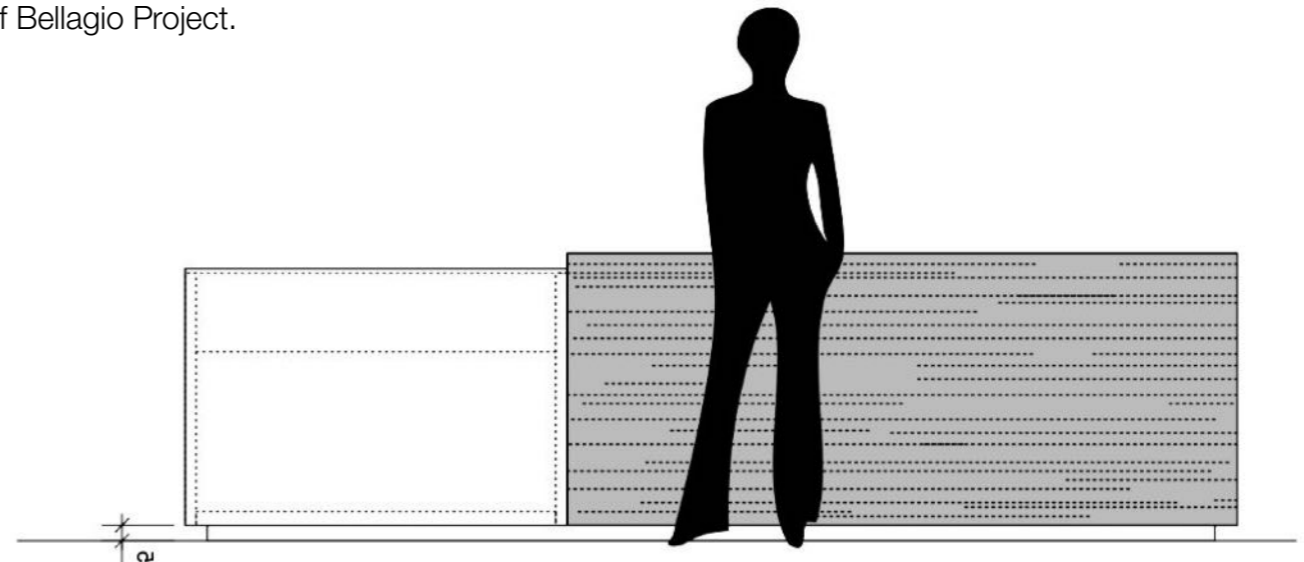

Lacquered metal handle. Shelves and bottle rack system in Canaletto walnut.

Led Light is used in Bellagio Project to define the spaces and to create astonishing suggestions

Ergonomics, functions, use of spaces, integration are the essential elements of Bellagio Project.
