NIGHT CABINET SYSTEM - TYPOLOGIES

**LAURAMERONI**  
design . collection

Brushed matt lacquered or completely wood veneered units available in three different dimensions and with the same internal and external finish. The low unit is fitted with a drawer; the medium unit with a hinged door and 3 fixed internal shelves and the high unit with a hinged door and 4 fixed internal shelves.

Totem-like furniture, resembling essential architectures, with a major and sculptural impact arousing a new and mysterious scenario. Cirque Collection products create an unexpected atmosphere, a slight disorientation; when juxtaposed, similar to metaphysical objects, they produce an effect of suspension which stands out for its shapes, unusual when compared to the furniture we are used to.

The medium and high units have a hinged door, realized in the same finish of the structure.

Each unit is internally fitted with shelves to offer a practical solution for different needs.

These units are available in all wood essences of the collection with the same finish both internally and externally.

The attention to tiniest details and the selection of the most precious materials meet the needs of the most demanding clients.

Cirque units can be used individually or in combination to create always different compositions.

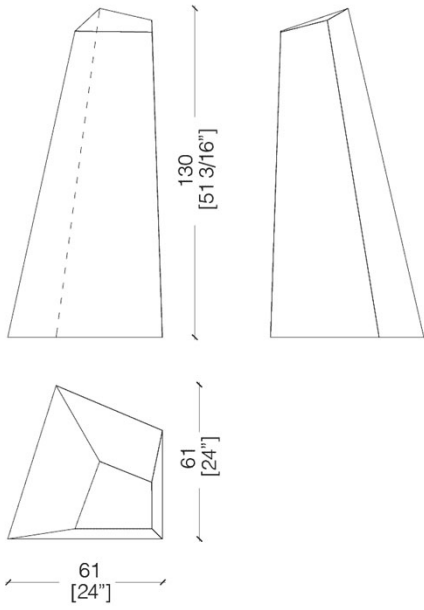

These units are also available in the brushed matt lacquered version in all RAL colors.

The lower unit is fitted with a functional drawer, with the same internal and external finish.

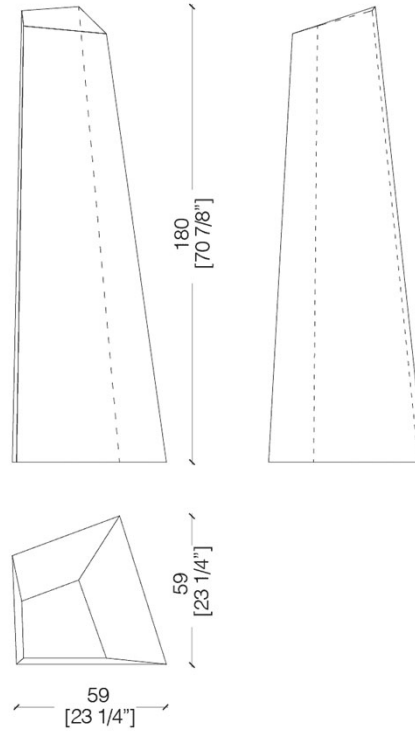

Every detail is the result of a precise research by our designers and of the patient work of our craftsmen. Cirque are sculptural objects that can be used in sophisticated environments.
