GLOBE FLOOR LAMP

LAURAMERONI
design . collection

Globe is a sophisticated floor lamp available in different finishes with adjustable rotating lamp shade with LED light. It is available in black iron, satin copper.

The project aims to appreciate the material with which it's made, thanks to the forms and craftsmanship, looking for a delicate balance between form and substance. The centrepiece of the "Globe" lamp project is all about the central pivot on which the lampshade rotates.

Available in black Iron "cenere" or with satin copper lampshade, Globe is a sophisticated yet extremely modern lamp. The lampshade rotates on its axis to direct the light according to any need.

The LED stripe is adjustable to direct the light in different ways. The combination of satin copper with black lacquered parts creates a unique and surprising effect.

Globe is a modern product characterized by a sophisticated design, without renouncing to materials quality. Perfect for both offices or elegant living rooms, Globe is the ideal solution for the most demanding clients.
