KYLINDROS STORAGE UNIT

LAURAMERONI
design . collection

Kylindros is a wood veneered “walk-in” unit with horizontal Decor carving and internally fitted with small shelves.

Kylindros are cylindrical elements of big dimension and they assume an architectural importance in the surroundings.

The unit is divided into 3 pieces all high long, one of them can be opened (extendable) and the internal side is lit from above and could be fitted to display or to contain.

It is designed to be used for different purposes: Kylindros Golf is dedicated to sport lovers; Kylindros Show is fitted with a 12-shelves spiral.

Kylindros golf is designed for sport lovers: a unique unit where you can store golf sticks and accessories.

The unique rounded surface with decor carving underlines the extreme ability of our craftsmen.

This unit offers the possibility to elude and overcome the bonds demanded by the industrial production.

Kylindros Show is fitted with a 12-shelves placed in spiral form.

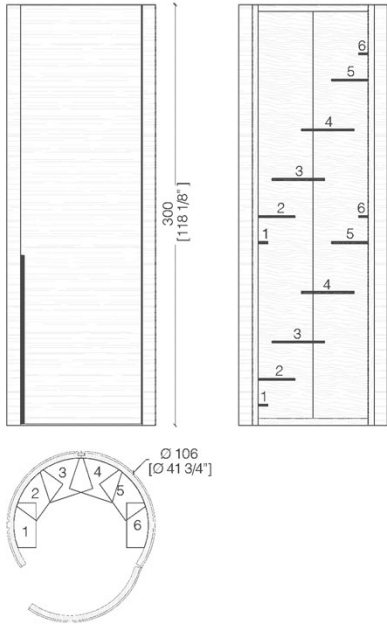

Kylindros is made up of 3 pieces all high long for a surprising effect.

The small shelves can be used to display different objects in a unique cabinet.
