SHADOW

Set of round low tables with lacquered metal structure and customizable top finish in marble or glass.

Shadow is a set of versatile coffee tables for dimensions and finishes, designed with comfortable and essential shapes. The offset top surfaces and the unusual combination of materials and finishes create an attractive and elegant contemporary design.

They can be placed in home and public spaces such as offices or hotels and can also be set in the night area, turning into elegant bedside tables.

The "Shadow" collection includes three coffee tables with different sizes and heights, which can be combined together thanks to the sophisticated elegance.

The juxtaposition of the various finishes of the structure and the wide selection of top surfaces amplifies the contemporary and refined design of the sinuous line of its structure.

The particular lacquered structure of the table creates a game of "empty and full" that dialogues with the two overlapping top surfaces embellished with the use of "Green Guatemala Marble".

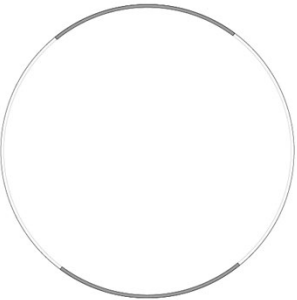

The 50 cm high version can be interpreted as a refined bedside table and placed next to modern beds in refined bedrooms.

The use of glass as an upper supporting surface multiplies the geometries and lines of the coffee table design. The juxtaposition of the various tables creates an aesthetically pleasing game of proportions.
