TALENTO COLLECTION – TALENTO UNLIMITED

---

**LAURAMERONI**  
design ■ collection

Tall unit with structure in wood or lacquered wood and doors in "Liquid Metal" finish with "Unlimited" texture.

Talento is a containing unit with a strong visual impact where craftsmanship and design come together in a wise balance of empty and full and an alternation of different depths and proportions.

The new "UNLIMITED" texture in liquid metal embellishes and emphasizes the two doors. The rounded edges of the entire structure and the particular recessed handle represent a further detail which highlights the originality of the design. An architectural jewel designed and equipped for storing objects.

A structure of well-proportioned dimensions and volumes that frames a container for refined objects that seems to be suspended in the space. The particular handle integrated in the doors has been deliberately designed as a decorative element with a strong aesthetic value.

The opening of the doors reveals the interior curated in the smallest detail and equipped with glass and wooden shelves. The built-in LEDs reflect the showcased objects and amplify the space giving a soft light.

A light and timeless elegance, made of carefully designed details to fully satisfy the aesthetic criteria that a luxury product and contemporary design must reflect.

The proportion between empty and full, the different depths of the structures and the rigor of the dimensions elegantly outline the space surrounding the "Talento" cabinet.
