Boiserie Wall Covering Panels

Boiserie Collection

Boiserie is a system of customizable panels which can create a wide variety of atmospheres for the interior space depending on the finish selection.

Available in 2 versions:

- Boiserie – V with vertical panels
- Boiserie – H with horizontal panels.

The panels are made from okoumè multilayer wood and are available in a wide variety of finishes, from natural or colored wood, to lacquered or special finishes such as porcelain, stones and fabrics/alutes.

The system can be integrated with the flush to wall frame B-Line and permits to have a fully coplanar surface between door and panels.

The doors and panels may also come in a primed finish to allow for the customer to paint over it or install their own wall paper finish.

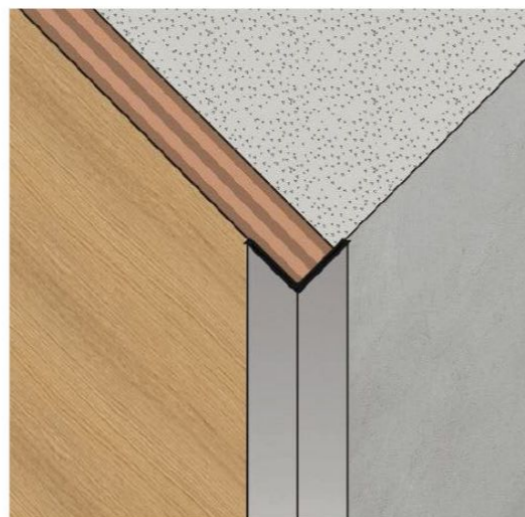

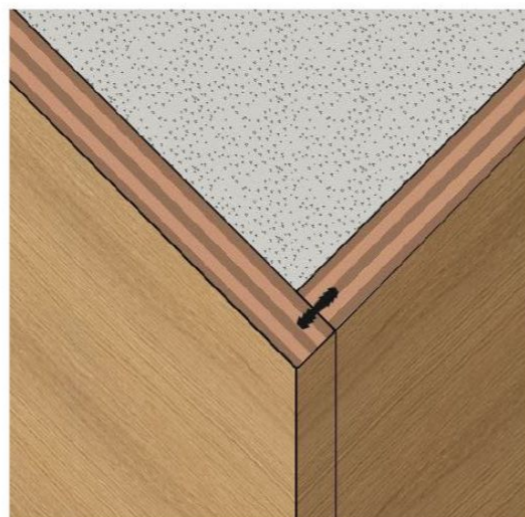

Edged closing panel.

Matched or lacquered aluminum profile for closing.

45° assembled panel with one side maximum dimension 150 mm.

90° assembled panel.

16 mm

PANEL

Waterproof Okume panel with finishing applied on one side.

HORIZONTAL APPLICATION

Installation of the starting panel Boiserie-H.

Anchor of the starting panel Boiserie-H.

Installation of following panels Boiserie-H.

Trim
trim insulating panel from floor

Fix
Boiserie panels shall be fixed with given clips and glued with adapt glue

BOISERIE "LIGHT" IS A WALL PANEL SYSTEM, MADE BY OKOUMÈ MULTILAYER WOOD. THE PANEL SYSTEM CAN BE INTEGRATED WITH THE FLUSH-TO-WALL FRAME, PERMITTING A FULL LINEARITY BETWEEN DOOR AND PANELS.

PANELS ARE HUNG ON THE WALL WITH PLUGS AND SCREWS. THE JOIN BETWEEN PANELS HAS BEEN DESIGNED TO HIDE ANCHOR SCREWS. PANELS ARE AVAILABLE IN THE SAME FINISHING AS DOORS.
